

Certificate of analysis

SFC-803-03-02

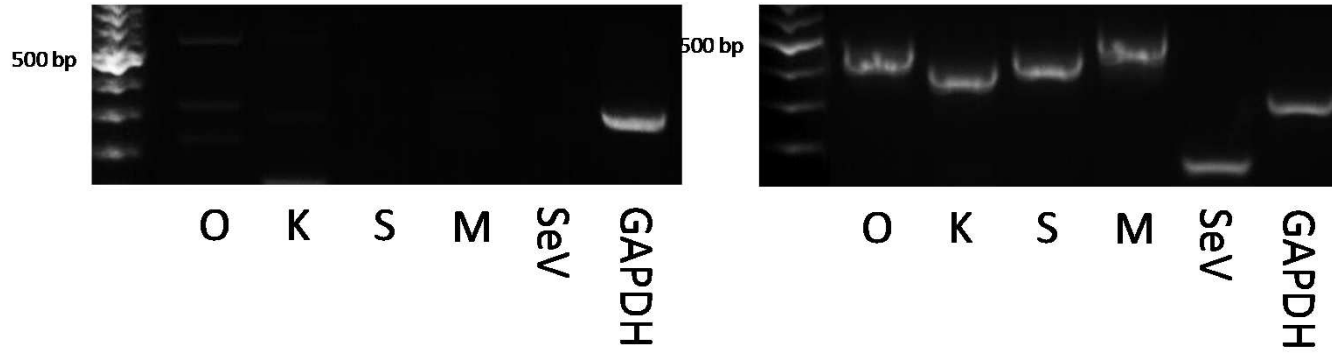

Source of fibroblasts

Patient fibroblasts SF803 received from UOXF, April 2013

Sendai Clearance

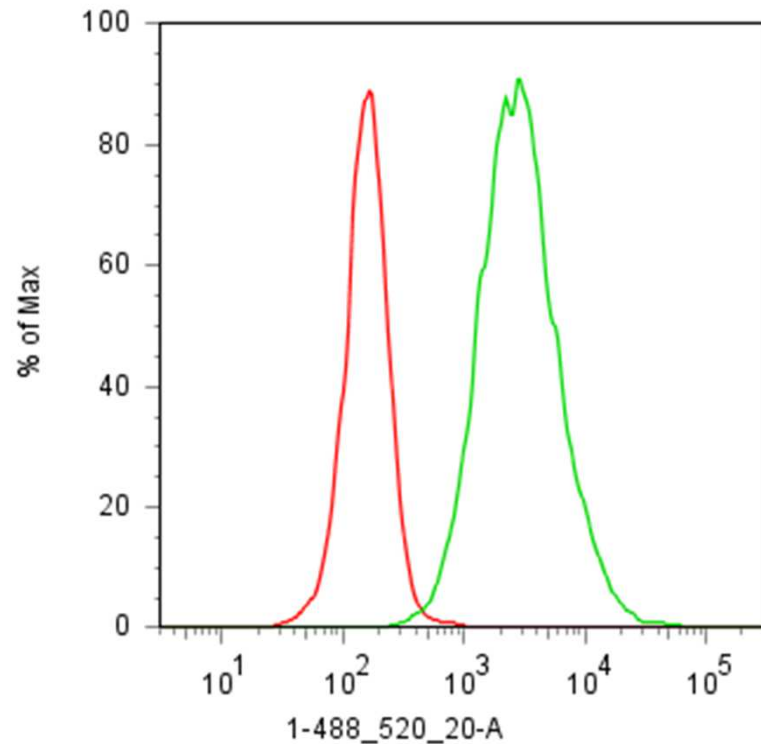

SFC803-03-02

Positive control

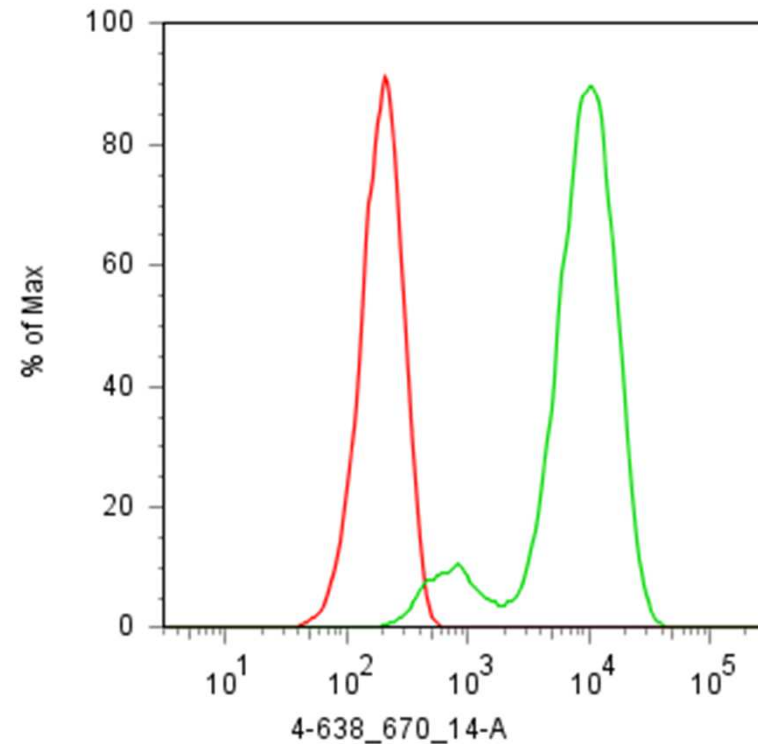

Flow cytometric analysis

TRA-1-60: 89.9%

NANOG: 86.6%

CytoSNP analysis

Identity to parent fibroblasts

- confirmed

Karyotype abnormalities

- Pass: minor allelic imbalance Chr19 also present in parent fibroblasts
