

Cell Line Information Pack (CLIP)

Cell line name	STBCi238-A
ECACC Catalogue No.	66541058

Purpose

The purpose of this Cell Line Information Pack (CLIP) is to communicate cell line specific information to potential users of the cell line, and to confirm that a User has received it upon the purchase of an EBISC cell line.

Information

The CLIP may provide a variety of types of information related to an individual cell line. Of particular importance are Third Party Obligations (TPOs), which are ethical or legal obligations of a Depositor related to the use of the cell line. TPOs may impose ethical or legal limitations on the ability of a User to use the cell line, or require steps to be taken before it can be used. TPOs are likely to be:

- Obligations under license to an intellectual property rights (patent) holder, or
- Restrictions on use imposed by the donor of the primary tissue from which the cell line was made.

Third Party Obligations: donor consent provisions

Restrictions contained in the donor consent forms

The Material shall not be:

- sold to anyone;
- transplanted into any human being (for example, to treat a disease); or
- used to create egg or sperm cells (gametes), or embryos.

The User should consider returning incidental findings if they are clinically significant and actionable, in line with best practice and with further analysis to verify the finding where this is appropriate.

Research use restriction, only to be used for research into Parkinson's Disease and other neurodegenerative disorders.

Restrictions contained in the StemBANCC Project Agreement

The Material shall not be used for Direct Exploitation. For the purposes of this Appendix 2, "Direct Exploitation" means to develop for commercialization or to commercialize the Material.

Cell Line Information Pack (CLIP)

Cell line name	STBCi238-A
ECACC Catalogue No.	66541058

Third Party Obligations: IP or license provisions

This EBiSC Cell line was generated under the technology disclosed in patents related to iPS cells which are owned by Kyoto University and are licensable from iPS Academia Japan., Inc. ("iPS AJ"). Commercial user (for-profit entity) acknowledges that, prior to receipt and use of this EBiSC Cell line, such commercial user needs to have an appropriate patent license from iPS AJ even for its research use. Academic user (academic or not-for-profit entity) acknowledges that such academic user does not need a patent license from iPS AJ for its research use, provided, however, that when such academic user uses this EBiSC Cell line for other than its independent research use, such academic user acknowledges that the academic user might need to obtain an appropriate patent license from iPS AJ. For inquiries to iPS AJ, please contact at license@ips-ac.co.jp.

Other information

None
